Intelligent temperature control

10000LM
+200% BEAM

55 WATTS
HIGH POWER

6000K
COMFORT DAYLIGHT

12000RPM
STABLE COOLING

PLUG-AND-PLAY
QUICK INSTALLATION

WHOLE ALUMINUM
AVIATION GRADE

EAB-D1S

FEATURES

- Three copper pipe heat conduction
- The PCB is 0.8cm, and the light type is excellent
- D series 6 models

SPECIFICATION

- Start Power: 120W
- Brightness: 3600LM ~ 4200LM
- Color temperature: 6500K
- Light efficiency:> 80 LM/W

We are excited to announce our high performance LED lights to replace dim and worn out HID Xenon Gas bulbs. We carry the largest variety of LED light bulbs for upgrading any style of (D) HID headlight (D1S, D1R, D2S, D2R, D3S, D3R, D4S, D4R, D5S, D5R). These are direct fit bulbs that plug into your OEM housings and use your existing Ballast for power. Check out our selection and let us know if you need help selecting the right kit for your Vehicle!

1. Ultra high brightness,
power can be customized to 250W

2. Special nano-scale
composite double copper tube

3. Intelligent temperature control
120°C on chip, 70°C on drive

Non-destructive installation

Red copper base plate

Integrated drive

Waterproof

High brightness

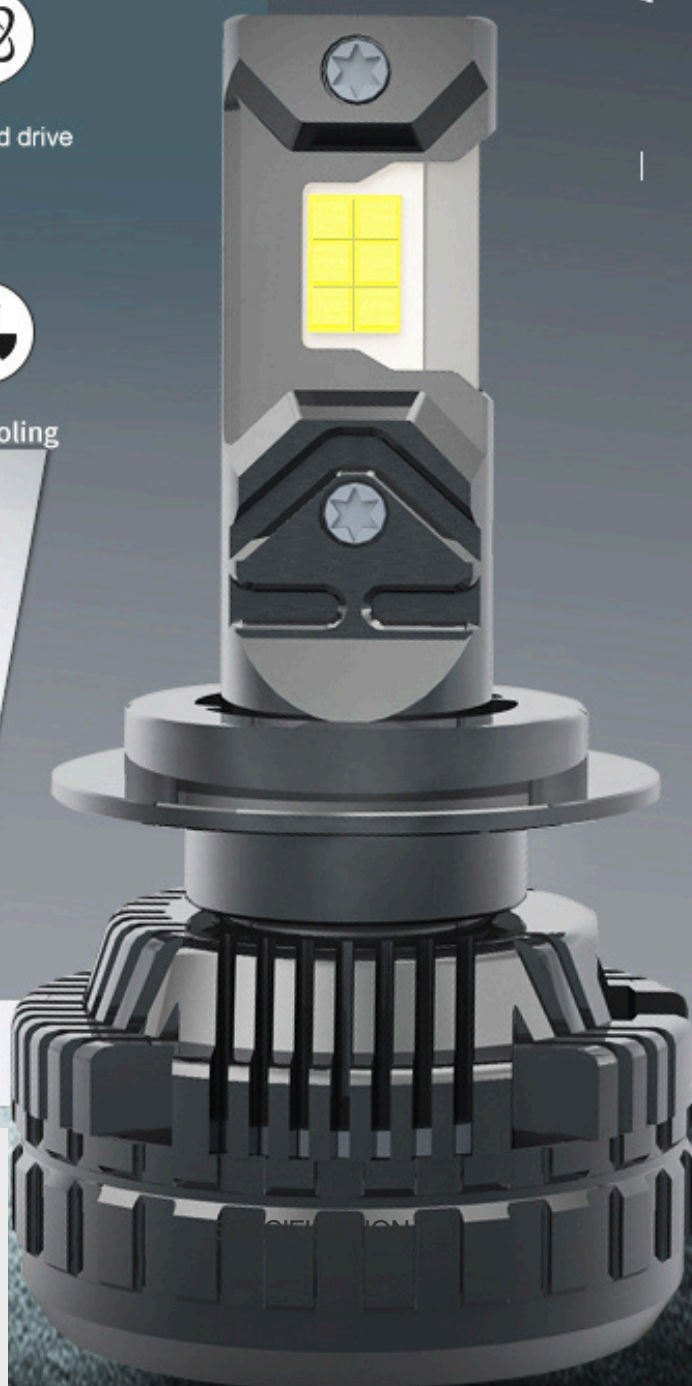

Fast cooling

F1

high quality

high quality

Item No.F1

- Start Power: 70W
- Stable Power: 55W
- LED Type: 7545 6-Chips
- Start Brightness: 12000LM
- Voltage: DC9-36V

F30 Regular Power Series

Features:

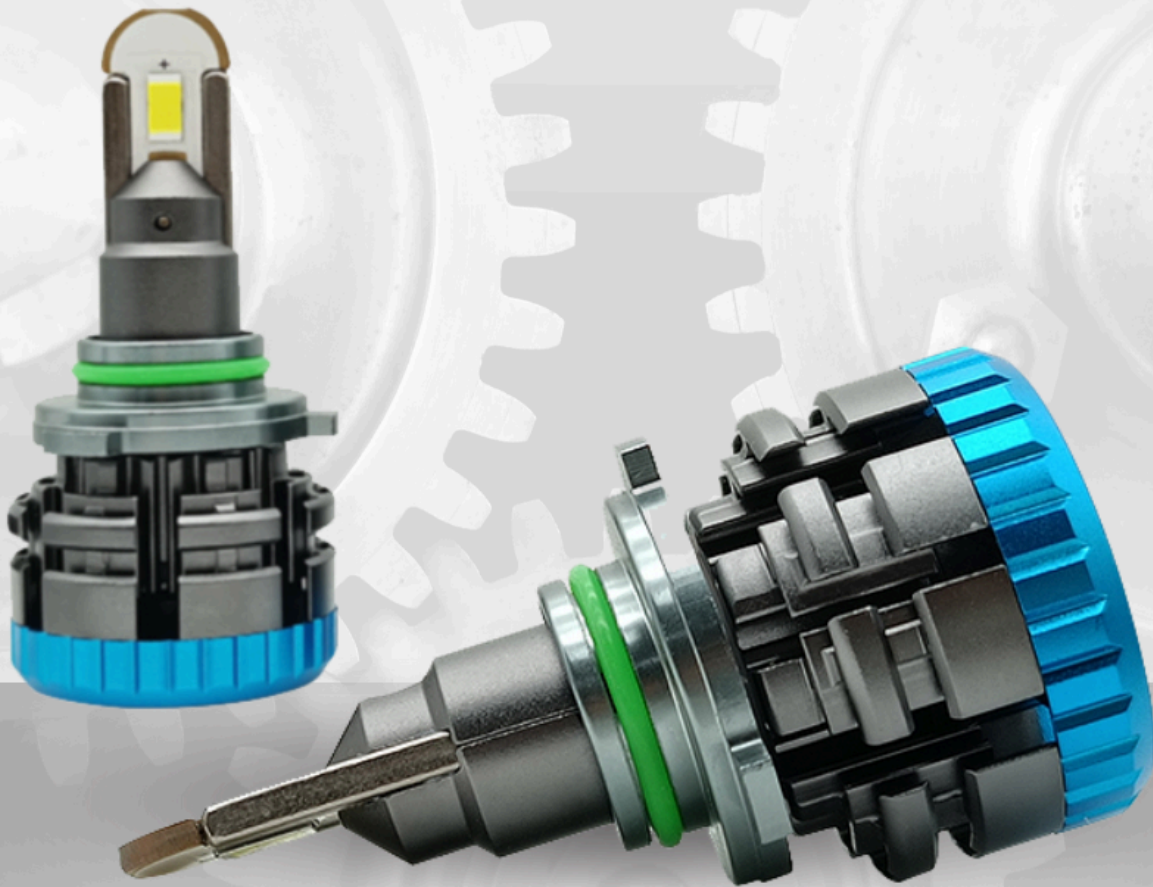

- Extremely cost for 32W
- Built-in high power anti-interference driver
- Zinc alloy plating bottom cover, 32mm in diameter, high installation rate, strong texture

Specification:

- Start Power: 32W
- Stable Power: 27W
- LED Type: 3570 6-Chips
- Start Brightness: 3000LM
- Voltage: DC12-24V

F18 High Power Series

Specification:

- Start Power: 60W
- Stable Power: 50W
- Color: Gary (Customized other colors)
- LED Type: 3570 6-Chips
- Start Bightness: 4800LM
- Voltage: DC12V

This product is made of high-quality materials to serve you for years to come. This product designed using state-of-the-art technology and with customers in mind. It will meet your needs and deliver great quality at an affordable cost.

Decoder Series 125W F1 PRO Power Adjustable LED conversion kit

Item NO.F1 Pro	Led headlights bulbs
Start Power	125W
Stable Power	75-80W
Led Type	7545 6-chips
Start bightness	9800LM
Voltage	DC9-36V

In fact, for LED headlights, long service life, stable performance, and the best cost-effectiveness should be the focus of our design. And simply focusing on super power and unusually high brightness can only be exchanged for short-term use lifespan and inconsistent product quality. The design of F1 PRO just embodies our design concepts, pursuing long service life and stable product quality with the most suitable product performance. Therefore, this series has been recognized by most customers in the market.

F45 ALL-IN-ONE Series

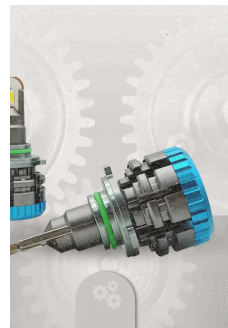

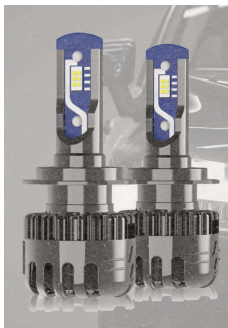

All-in-one conversion kit for easily adding LED headlights to your car or truck. Not only are the Cougar bulbs easy to install, they're long lasting, and offer plenty of brightness for illuminating your journey. These are essentially plug-and-play LED bulbs. On many vehicles installation can be done in under 30 minutes. It's as simple as unplugging the old bulbs, unscrewing them out, screwing these in, plugging them in, and you're good to go.

As for brightness, these bulbs are typically up to 200% than many stock halogen headlights. This keeps you safer on the road by better illuminating what's in front of you.

Drivers can expect more than 50,000 hours of continuous light from this set. Thanks to the TurboCool fan, the bulbs are unlikely to overheat and will keep a continuous output while you're driving.

Item No.F45	Led headlights bulbs
Start Power	45W
Stable Power	32W
Led Type	3570 6-chips
Start bightness	3600LM
Voltage	DC12-24V
